(She a little devil so demonic)
She a little devil so demonic...
Sharp eyes lookin so hypnotic
Don't know where she came from, she exotic
Body look good like she bought it
The way she wear black like she gothic
Anything she want, yeah she got it
Dark little features like she haunted
I'm addicted, call her narcotic

She got a little crazy in her eyes...
Sweet on the surface with a dark little side
She a different breed in the night...
A little bit of freak hidden on the inside...

She know how to work it
She look good in a mirror, damn perfect
But the horns comin' out when she working
She a first class ticket, good service... uhh

Good god, she does such a good job
Work it like a 9 to 5, no days off...
Get lost in the moment, get lost
She know she look good, yeah she don't got any flaws...

I'm the boss, she likes to get taught...
Baby looks good so I'm setting up shop...
Break the law, yeah we might get caught -
But I gotta have it now girl, you all in my thoughts...
