

## Need U.

Bryce Savage

She's anything but see through  
Her eyes got me falling  
Body that could bleed you  
Ready to go all in  
Baby girl I need you  
Can you hear me calling?  
Baby girl I need you  
Can you hear me calling?

If we're gonna die, then, we'll die together  
Lie by my side forever  
I'll love your soul wherever  
Forever!

Can't get you out of my head  
My mind has been gone, since you were right in my bed  
A lecherous night, that I will never forget  
I'll be by your side until we take our last breath  
The end...  
And I will never hurt you  
I know you won't hurt me  
You're a little gift that, I won't be returning  
Baby turn the lights out  
You are so deserving  
I'm gon turn your lights out  
I know you've been burning

Dark hair  
Light eyes  
Two souls intertwined  
I need you... mine

She's anything but see through  
Her eyes got me falling  
Body that could bleed you  
Ready to go all in  
Baby girl I need you  
Can you hear me calling?  
Baby girl I need you  
Can you hear me calling?

If we're gonna die, then, we'll die together  
Lie by my side forever  
I'll love your soul wherever  
Forever!
