Yeah she love like a Pisces  
She might be wifey  
A little bit spicy  
But just the right feisty  
Don't need no makeup  
But she always made up  
Lookin' good like she should  
Ain't no fake love

Yeah she love like a Pisces  
She might be wifey  
A little bit spicy  
But just the right feisty  
Don't need no makeup  
But she always made up  
Lookin' good like she should  
Ain't no fake love

Love language is touch yeah  
Never enough  
She just wanna feel loved  
By somebody she can trust

She deserve to be cuffed yeah  
I'll be the one  
When nobody is around  
I could make those cheeks blush

Hottie insane  
Her main emoji is flame  
She got me forgetting game  
Forget my name  
I just wanna lay a claim  
Yeah she all mine stay away  
She wear a chain  
And she like champagne  
She like to love  
But she been through pain  
But still finds a way  
To love everyday  
I love her the same  
Let's just run away

I know sometimes it gets hard yeah  
When you love with your whole heart yeah  
But baby all your scars are art, I won't let you fall apart...

Yeah she love like a Pisces  
She might be wifey  
A little bit spicy  
But just the right feisty  
Don't need no makeup  
But she always made up  
Lookin' good like she should  
Ain't no fake love
