

Shut Up

Bryce Savage

I'm colored like roses
I'm beaten and blue
I feel time is fleeting
I know you do too
I miss all the things that we used to do
You took all them from me and I won't forgive you

I said shut up, just shut up
I said shut up, just shut up
I said shut up
I'm so sick of you
And I said shut up, just shut up
I said shut up, just shut up
I said shut up
I'm so sick of you

Eyes peeled, water dripping
The cold from the snow
And I feel somethings missing
I'm alone, so alone
I don't want you to take it all back
'Cause it's a little too late for that
I just feel somethings missing
I'm alone, so alone

And all of these things they swirl around in my head
And that's why I said

I said shut up, just shut up
I said shut up, just shut up
I said shut up
I'm so sick of you
And I said shut up, just shut up
I said shut up, just shut up
I said shut up
I'm so sick of you

And I keep on looking around
And I keep on making a sound
But no one is here in town
I'm so lost and I'll never be found
A rose petal drops to the floor
A lone bottle reaches the shore
A girl slams shut her bedroom door
She doesn't exist anymore

And all of these things they swirl around in my head
And that's why I said

I said shut up, just shut up
I said shut up, just shut up
I said shut up
I'm so sick of you
And I said shut up, just shut up
I said shut up, just shut up
I said shut up
I'm so sick of you
