

# Too Pretty

Bryce Savage

She's too pretty for her own good  
She's too pretty when she stands right next to me  
Too pretty for her own good  
The attention's like a quick hit of ecstasy

So come over  
Let's get closer  
Don't be sober  
We'll be loners

So come over  
Let's get closer  
Don't be sober  
We'll be loners

So come over  
Let's get closer  
Don't be sober  
We'll be loners

She's too pretty for her own good  
The attentions getting to her head  
She's too pretty for her own good  
Rosy cheeks and a soul that's already dead  
She's too pretty for her own good  
Devils eyes mixed with lies that she tells her friends  
She's too pretty for her own good  
Sleepless nights for the guys who believe what she said

She's too pretty for her own good  
She's too pretty so the cold world changed her soul  
Too pretty for her own good  
She's too pretty so the world took advantage oh

So come over  
Let's get closer  
Don't be sober  
We'll be loners

So come over  
Let's get closer  
Don't be sober  
We'll be loners

She's too pretty for her own good  
The attentions getting to her head  
She's too pretty for her own good  
Rosy cheeks and a soul that's already dead  
She's too pretty for her own good  
Devils eyes mixed with lies that she tells her friends  
She's too pretty for her own good  
Sleepless nights for the guys who believe what she said

She's too pretty for her own good  
She's too pretty when she stands right next to me  
Too pretty for her own good
