

## With Her

Bryce Savage

She a little bit hot  
She a little bit cold  
27 years young  
With a soul so old  
A pair of bright eyes, in the night they glow  
She a ride or die, she don't take things slow...  
I just wanna roll with her  
Grow a little old with her  
Never feeling low with her  
That's how the story goes with her

Yeah she stay bad  
You don't wanna be her ex, cuz she's pay back  
When she looking that good, can't fake that  
When she walk past, wanna see that play back  
Yeah, I just wanna chase that  
I could give a good life, just lay back  
We could travel this world, take a plane fast  
End up on a beach somewhere nameless

She likes to get tipsy, off a little bit of wine  
Summertime fine oh my  
Bikini over tan lines, she a dime  
Never seen a girl with eyes that nice  
Make a man look twice  
She sugar and spice  
Sweet like candy, but with a dark side  
5'5" in the day, 5'10" in the night  
With some high heels on she be looking just right

Do you know that feeling?  
When you meet the right person  
And the pain stops hurting  
Do you know that healing?  
If you don't keep searching  
And one day it'll surface  
I fell in love for a night...  
And now I'm riding this high  
And I will never forget  
The way I feel tonight...

I just wanna fall in love tonight  
Yeah we gon have a good time...  
We gon dance until the sun is night  
She real easy on the eyes

...She got a face that belongs on the big screen  
Hollywood eyes gleam with some big dreams...  
Yeah she could make a man go crazy  
Rocking that body round town on the daily  
But she all mine  
And I'm all hers  
We don't waste time  
Memories blur  
Long nights get a little tipsy  
Take the edge off, couple shots of her whiskey

Compare music  
In the car cruising...  
PCH, highway beach viewing  
Always moving  
Fast life choosing  
We gon see the world one day, yeah we'll do it  
She's a lost soul  
Searching for a passion  
She got fashion  
Lights camera action  
She belong on the cover of a magazine  
I'm addicted to her, she my nicotine
