

Best Days

Bryce Vine

I've never been a saint, I've always been a sinner
I'm caught up in the race, I've just never been a winner
And every other day gotta pay for a bad choice made
Thinking karma may be something to consider
And high school's done, I'm wishing I could go back
But all things gold never last and I know that
So that's why tonight is going down
So have another drink and buy another round

Take it for whatever it is
We do whatever we want
So raise another glass to the best days
Take it for whatever it is
I'm not tripping at all
I never gave a fuck in the first place
We just wanna party and drink all night
And live it for the moment cause it feels so right
Take it for whatever it is
We do whatever we want
Raise a glass to the best days
Yeah, raise a glass to the best days
Raise a glass to the best days
Raise a glass to the best days

My attitude's shit, my bank account's zero
But everything's cool cause tonight I'm a hero
A Superman cape on a Lois Lane chase
Baby we can fly away to the stars Galileo
Ayo, wait, we run around town
Chasing these skirts save a moment like Kodak
So that's why tonight is going down
So have another drink and buy another round

Take it for whatever it is
We do whatever we want
So raise another glass to the best days
Take it for whatever it is
I'm not tripping at all
I never gave a fuck in the first place
We just wanna party and drink all night
And live it for the moment cause it feels so right
Take it for whatever it is
We do whatever we want
Raise a glass to the best days

Take it for whatever it is
We do whatever we want
So raise another glass to the best days
Take it for whatever it is
I'm not tripping at all
I never gave a fuck in the first place
We just wanna party and drink all night
And live it for the moment cause it feels so right
Take it for whatever it is
We do whatever we want
Raise a glass to the best days
