

Classic and Perfect

Bryce Vine

Girl, you're classic and you're perfect
And you're alrighty 'cause you're flawed like me
Yeah, you're new school but you're old soul
Yeah, you're special, you're all I need

Girl, you're classic and you're perfect
And you're alrighty 'cause you're flawed like me
Yeah, you're new school but you're old soul
Yeah, you're special, yeah

You've got it all even when you don't
I see a guard and you let it show
I come around and you said hello
You're kind of different from the rest, you're the better best

Yeah, I want it all even when I don't
You've got a mind and you've got a soul
I'm tryna find what you never show
See that ruby in the rough, girl, you play it tough

Champagne pop in the living room
All day like we never used to
Move like wine in a swimming pool
Nice day for another dive

Girl, you're classic and you're perfect
And you're alrighty 'cause you're flawed like me
Yeah, you're new school but you're old soul
Yeah, you're special, you're all I need

Girl, you're classic and you're perfect
And you're alrighty 'cause you're flawed like me
Yeah, you're new school but you're old soul
Yeah, you're special, yeah

Girl, it's been a while since I had someone
I can rely on and talk to and learn from
Opposite the fame, it's the best thing in life
It's a personal I love
Yeah, you can make a fuss if you want
In the bed, on the couch, when you come it's amazing
We don't got a plan where the night goes now
When the lights go down

Champagne pop in the living room
All day like we never used to
Move like wine in a swimming pool
Nice day for another dive

Girl, you're classic and you're perfect
And you're alrighty 'cause you're flawed like me
Yeah, you're new school but you're old soul
Yeah, you're special, you're all I need

Girl, you're classic and you're perfect
And you're alrighty 'cause you're flawed like me
Yeah, you're new school but you're old soul

Yeah, you're special, yeah

Long hair down in the living room
Champagne like we never used to
Move like wine in a swimming pool
Nice day for another dive

Girl, you're classic and you're perfect
And you're alrighty 'cause you're flawed like me
Yeah, you're new school but you're old soul
Yeah, you're special, you're all I need

Girl, you're classic and you're perfect
And you're alrighty 'cause you're flawed like me
Yeah, you're new school but you're old soul
Yeah, you're special, you're all I need
