

GOOD 4 NOTHING

Bryce Vine

Who are you?
Where you from?
All the little things that add up
I don't want to know
Self-control
Lose it all for the night, but
I'm not going home

All of the things that you want, are you waiting for?
Can't get enough of it, always wanting more

Ain't no rest for the wicked in love
Are you crazy enough?
'Cause we're all down bad for something
Tell me, are you ready or not?
I never know when to stop
At the best, we're good for nothing
The radio silence is screaming at me
And all the emotions the chemistry brings
Tell me the cost of the prettiest things
No walking away from you

Yeah, she said, "Turn the lights off
We can smoke some, the shape of you is turning me on
Give me sweet emotion 'cause lately, I haven't really felt 'em at all"
Goddamn, baby got it like that
She don't do this very often, not a model, that's a fact
Gotta keep it coming back, it's a movie where we at
Another party in the hills, was I there when you imagine?

All of the things that you want, are you waiting for?
Can't get enough of it always wanting more

Ain't no rest for the wicked in love
Are you crazy enough?
'Cause we're all down bad for something
Tell me, are you ready or not?
I never know when to stop
At the best, we're good for nothing
The radio silence is screaming at me
And all the emotions the chemistry brings
Tell me the cost of the prettiest things
No walking away from you

Ain't no rest for the wicked in love
Are you crazy enough?
'Cause we're all down bad for something
Tell me, are you ready or not?
I never know when to stop
At the best, we're good for nothing
The radio silence is screaming at me
And all the emotions the chemistry brings
Tell me the cost of the prettiest things
No walking away from you
