It Falls Apart

Bryce Vine

Can someone come and pick me up
I think I'm good, I had enough
I spent the night at not my house
I left my wallet in the couch

So can you come and drop it off?
And can you bring some need along?
I'll meet you underneath the moon
A darker side of me and you, you

Know I'm just as lost as you are
Blame it all on the stars
If it falls apart, it falls apart
I'm just as lost as you are
You light me up, I been in the dark
If it falls apart, falls apart

'Cause we're running out of time
But we feel fine
Running out of days but it's all okay
Spill your whiskey on the floor

Someone come and pick me up
I'm hella good, I had enough
Let's start a riot on the streets
Call the lobby for the keys and me, yeah

I'm just as lost as you are
Blame it all on the stars
If it falls apart, it falls apart
I'm just as lost as you are
You light me up, I been in the dark
If it falls apart, falls apart

Need a little more and I don't wanna let you go
Say I'm crazy and I'm never gonna change
The stars are out of focus, the bars are finally closing down

'Cause we're running out of time
But we feel fine
Running out of days but it's all okay
Spill your whiskey on the floor
Someone come and pick me up

I'm just as lost as you are
Blame it all on the stars
If it falls apart, it falls apart
I'm just as lost as you are
You light me up, I been in the dark
If it falls apart, falls apart
