

Margot Robbie

Bryce Vine

You know you've got a kick like Kemo Sabe
I'll take you to the hills in my Ferrari
You know you kinda look like Margot Robbie
I'm focused on you like you're the star of the movie
Yeah yeah

I love when you acting out, roleplay and you act it out
We fuck then I'm passing out, back up in a half an hour
She come, I roll up, we falling out and act senseless
I know she'll pull up, she Harley Quinn in that Lexus

Yeah, 'cause you're more than ordinary
Got the scene all set for you
And I'm over that Drew Barry
Need a Spice Girl

You know you've got a kick like Kemo Sabe
I'll take you to the hills in my Ferrari
You know you kinda look like Margot Robbie
I'm focused on you, you got me froze like Medusa
She said she wanna live like no tomorrow
I'll take you to the beach, black out in Cabo
I think that you should be my supermodel
I'm focused on you like you're the star of the movie

Tryna focus on you
What you wanna do?
Too many people in the room
I'm focused on you like you're the star of the movie
Yeah yeah

Never thought the famous life could bore you
Played your part like Christian and Dior
Need you like some rain in California
Now you're in the mood for something more
Liqueur, she pour up
It's on your tongue and I taste it
Volcan, it's on us
I give the world and you take it

Yeah, 'cause you're more than ordinary
Got the scene all set for you
And I'm over that Drew Barry
Roll the dice girl

You know you've got a kick like Kemo Sabe
I'll take you to the hills in my Ferrari
You know you kinda look like Margot Robbie
I'm focused on you, you got me froze like Medusa
She said she wanna live like no tomorrow
I'll take you to the beach, black out in Cabo
I think that you should be my supermodel
I'm focused on you like you're the star of the movie

Tryna focus on you
What you wanna do?
Too many people in the room

I'm focused on you like you're the star of the movie
Yeah yeah
