

On The Ball

Bryce Vine

I feel like I'm on the ball today
I even felt exempted from the law today
It's like this revelation dawnd on me
It's so amazing help support the cause
I get everyone involved
I feel like I'm on the ball today
I even felt exempted from the law today
It's like this revelation dawnd on me
It's so amazing help support the cause
I get everyone involved

Single shot of whiskey fuck it make it double
All my people with me always making trouble
I just hit a fast pass drink
Fuck a quite night I'm wide awake
Yeah half past three
God I used to struggle tryna up a level
Pushing every limit no we never settle
So many people turned their back when I was tryna blow
Now I'm thinking we should let 'em know

I feel like I'm on the ball today
I even felt exempted from the law today
It's like this revelation dawnd on me
It's so amazing help support the cause
I get everyone involved

I'm that trend you gotta follow
That pill you wanna swallow
My mood a teeter totter, hot or cold I'm afagatto
Someone cue the violin
We just made it through the storm
Used to wonder where we headed
We don't wonder anymore
So, single shot of Henny fuck it make it triple
She pulled me to the ally for the slap and tickle
So many people had my back when we were tryna blow
Now I'm thinking we should let 'em know

I feel like I'm on the ball today
I even felt exempted from the law today
It's like this revelation dawnd on me
It's so amazing help support the cause
I get everyone involved

One- two
You can come home if you want to
We can roll greens on the bathroom floor
We don't use words baby less is more
Oh, one- two
You can come home if you want to
We can roll greens on the bathroom floor
We don't use words baby less is more

I feel like I'm on the ball today
I even felt exempted from the law today
It's like this revelation dawnd on me

It's so amazing help support the cause
I get everyone involved
I feel like I'm on the ball today
I even felt exempted from the law today
It's like this revelation dawnded on me
It's so amazing help support the cause
I get everyone involved
