

# Our House

Bryce Vine

We'll have a house party, party, tonight, alright  
Bring your girl if she down to freak  
We'll have a house party, party, tonight, that's right  
Our house is the place to be

Our house is the place to go  
To have good times with the ones we know  
So if you ain't shady and you like going crazy  
Our house is the place to roam  
Got a couple bottles that I stashed in the trunk  
Send a mass text now my phone's blowing up  
Shit we don't give a fuck  
You can bring your friends if you'd like  
And you can rock a benz or bike, nigga anything you like  
As long as the bass is rocking  
The girls look good and the place is popping  
We ain't gon' stop till we drink every drop  
And we can't cop a new bottle past 2 o'clock  
Yeah, it's alright  
I got enough to keep us all night  
I got enough to keep us all high  
So just come to my spot tonight

We'll have a house party, party, tonight, alright  
Bring your girl if she down to freak  
We'll have a house party, party, tonight, that's right  
Our house is the place to be  
First we turn up the music  
Then we light up the good shit  
Everyone's feeling stupid  
Our house is the place to be  
People 'bout to lose it  
Girls are in the jacuzzi  
Feeling like it's a movie  
Our house is the place to be

Our house get a little bit stupid  
3 whole days, no sleep, feeling lucid  
And I'll be damned if I can't stand, posing for a post on Instagram  
I got love for the women that I'm with  
And I got love for the niggas in the clique  
Feeling fantastic, dropping acid on the roof  
Looking classic with the matching of the jackets on the crew  
And even when the cops is called  
We gon' keep it popping, get the cops involved  
Yeah my face is numb, the girls is drunk, the moon's still young

We'll have a house party, party, tonight, alright  
Bring your girl if she down to freak  
We'll have a house party, party, tonight, that's right  
Our house is the place to be  
First we turn up the music  
Then we light up the good shit  
Everyone's feeling stupid  
Our house is the place to be  
People 'bout to lose it  
Girls are in the jacuzzi

Feeling like it's a movie  
Our house is the place to be

On and on, face down on the lawn  
It's that juice up in the vodka  
Smoking something in the sauna  
On and on, I took too much adderall  
We'll be up until the morning  
Our house is fucking cool

We'll have a house party, party, tonight, alright  
Bring your girl if she down to freak  
We'll have a house party, party, tonight, that's right  
Our house is the place to be  
First we turn up the music

Everyone's feeling stupid  
Our house is the place to be  
People 'bout to lose it
