

RIGHT THERE

Bryce Vine

Hollywood and wasted time
Used to keep me up all night
Really hope it's everything you ever wanted
Heard you got your big break coming out in August
Listen when it's said and done
Had a helluva run
Summer took a piece of us
New designer drugs
The smile for the cameras
Miles high, we thought the fall could never damage us

I didn't know a New York night could break your heart
But if you're ever back in California
I'll be right there, right there, right there
I don't know how we fell apart
If it's goodbye then it was nice to know ya
I'll be right there, right there, right there

You hit that run way then ran away
Twenty-three was just a phase
Falling like a summer rain
Now sunset don't hit the same
It's not our fault we're both to blame
Truth cut like a razor blade
Look up in the lime lights
And all I ever see is your face
I heard you big city livin' it up
A couple stars on the tip of your tongue
That's just the hard part of fallin' in love
I know the winters are rough, but

I didn't know a New York night could break your heart
But if you're ever back in California
I'll be right there, right there, right there
I don't know how we fell apart
If it's goodbye then it was nice to know ya
I'll be right there, right there, right there

I'll be right there, right there, right there
