

Black And White

Brye

Every time I'm back here
I swear I'll never leave
The smoke will never clear
I'll never get back on my feet
Every hole I fall in
I dig myself a grave
A ditch that can I lie in
Until I reach my dying days

Black and white

Every time I feel good
I swear "it's gonna last"
Not a fleeting feeling
I can't fathom my dark past
I can't imagine crying
Or feeling any pain
Life is only black and white
And no gray

Black and white
Black and white
Black and white
Black and white

Every time I'm back here
I swear I'll never leave
The smoke will never clear
I'll never get back on my feet
Every hole I fall in
I dig myself a grave
A ditch that can I lie in
Until I reach my dying days

Every time I feel good
I swear "it's gonna last"
Not a fleeting feeling
I can't fathom my dark past
I can't imagine crying
Or feeling any pain
Life is only black and white
And no gray
