

It's About You

Brye

When you hear this song, I hope you think of me
Hope you hear yourself in every melody
Hope it's playing in your head right now
Hope it's playing on the speaker by your bed right now
Every fuck up interwoven perfectly

You can turn it down but you can't turn it off
Gonna follow you around never stop

(It's about you!)
Now you double crossed the wrong bitch
(It's about you!)
Gonna leave your ears haunted
(It's about you!)
It's your fault, I'm unlocking the vault
Yeah I'm digging all the skeletons out of your closet
Every single note I sing
Really hope it fucking stings
(It's about you!)

When you hear my voice I hope it makes you sick
Hurts to hear the truth, you just can't stomach it
Bet it's ruining your day right now
Bet you're trying to escape it but you don't know how

You can turn it down but you can't turn it off
Gonna follow you around never stop

(It's about you!)
Now you double crossed the wrong bitch
(It's about you!)
Gonna leave your ears haunted
(It's about you!)
It's your fault, I'm unlocking the vault
Yeah I'm digging all the skeletons out of your closet
Every single note I sing
Really hope it fucking stings
(It's about you!)
When you hear this song, I hope you
(It's about you!)
When you hear this song, I hope you
(It's about you!)
When you hear this song, I hope you

When you hear this song, I hope you think of me

Now you double crossed the wrong bitch
Gonna leave your ears haunted
It's your fault, I'm unlocking the vault
Yeah I'm digging all the skeletons out of your closet
Every single note I sing
Really hope it fucking stings
(It's about you!)
