

# Cosmopolis

Brygada Kryzys

we are all now  
we are all now  
we are all now  
we are all now  
I'm standing on the edge  
tryin' to see what's ahead of me  
psycho ultra space  
endless deja vu  
I want to tell you  
what's alright to know:  
let's make a celebration of love  
soul to soul  
CosmoPolis is not a place  
CosmoPolis is open space  
we are all now  
we are all now  
we are all now  
we are all now  
love the colour of your skin  
love the colour of your eyes  
this love has always been alive  
't will never die  
we're standing side by side  
on the edge of time  
sure we can fly  
it's enough to try  
CosmoPolis is not a place  
CosmoPolis is open space  
we are all now  
we are all now
