

Again

Brymo

Take my hands again
We will never be lost again
I do it all again
I chose to be with you again

Darling shey you dey see
The world is beautiful you see
And you make it beautiful for me
And love is a beautiful thing

Let us do it again
Don't let this moment fade away
We will make a way we break away
Oh tonight we fall in love again

I find your love again
It gets dark and dark this days
I want you to shine your light again
Make me believe again

Darling I know you see
The world may bring us down you see
But you make it beautiful for we
And love is a beautiful thing

Let us do it again
Don't let this moment fade away
We will make a way we break away
Tonight we fall in love again

Let us do it again
Don't let this moment fade away
We will make a way we break away
Tonight we fall in love again
