

# Back To Love

Brymo

Sleeping way too long  
I forget the place, I dey come from  
I be safe myself before before  
Now, I dey loose myself the more, the more  
You been waiting, way too long  
Dem dey tell you say, hin go reach your turn  
When you chase the light, the fame, the action  
Remember to come with the sense for caution

I'm going back to the basis  
I'm going back to the start  
I'm going back to the place  
Where the sunrise at dawn  
I'm going back to the time  
When we still felt pure  
I'm going back to the light  
To the place where life was simple  
I'm going back to love

Waiting way to long  
My days are cold  
My nights are cloudy  
Your love made me strong  
I'm coming back to you  
I'm coming back to happy  
Waiting way too long  
The time has come, e don reach our turn  
As we lay this bed today, today  
We will lie on top and so tey, so tey

I'm going back to the basis  
I'm going back to the start  
I'm going back to the place  
Where the sunrise at dawn  
I'm going back to the time  
When we still felt pure  
I'm going back to the light  
To the place where life was simple  
I'm going back to love

Won't you take me there  
Teach me the things, I need to know  
Won't you take me in  
I'm going back to love  
Won't you take me there  
Show me the place, I need to go  
Won't you take me in

I'm going back to the basis  
I'm going back to the start  
I'm going back to the place  
Where the sunrises at dawn  
I'm going back to the time  
When we still felt pure  
I'm going back to the light  
To the place where life was simple  
I'm going back to love
