

## For You

Brymo

Na you, be oracle  
Are you a seer  
Na you, be lemon grass and shear butter for my skin  
Na you be my switch-blade  
Cut dem open dem bleed  
And we dey stoke up the fire  
And it dey burn so brighter  
We know, we get only each other  
I dey the arms of the one wey love me the more

Souls fit save themselves  
And your own it tangle with mine  
We don comot from on top the shelf  
We belong to each other  
My heart dey only beat for you  
Na true, my heart dey only beat for you  
Na true, my heart dey only beat for you  
Na true

Na you, be comforter  
Na you be healer  
Na you, be melody when I need to sing  
Na you be revealer you dey show me all I fit be  
And we dey stoke up the fire  
And it dey burn so brighter  
We know, we get only each other  
It dey always dey my mind  
The only one I love

Souls fit save themselves  
And your own it tangle with mine  
We don comot from on top the shelf  
We belong to each other  
My heart dey only beat for you  
Na true, my heart dey only beat for you  
Na true, my heart dey only beat for two  
Me and you
