

God Is In Your Mind

Brymo

There are nights tonight have had enough
I just lay a bow without a care
You're not lonely if you don't feel alone
Don't let pressure get the best of me
Fight your woes lose at some fight some more
Don't be scared to get lost and be found
You are that someone you think you are looking for
Let the fire burn just like before

For the first time God shall be without a face
For the first time God shall be without a Name
Will no longer look for self in every mirror
For the first time God is in your mind

People come people judge people go
Some will say is each one to his own
If you go na him you go know
Let by gone be gone oo

For the first time God shall be without a face
For the first time God shall be without a Name
Will no longer look for self in every mirror
For the first time God is in your mind

In your your mind
I love to be all that you want me to be
But am not the same man that I used to be
