

Let Us Be Great

Brymo

Old man
Standing at the tip of the pyramid
Hauling stones at anyone who's climbing
But it's too late, oh
The whole town is already infested with the virus, the rupture
At the bottom, will bring us all down

Let us be great for once
Let there be room for all
The whole world is moving on
What are we waiting for?

Young man
Sitting at the base of the pyramid
Hauling hate speech at anyone who's watching
But it's too late, oh
He burnt all his bridges, it's funny
He part is the rupture
In our heart it will bring us all down

Let us be great for once
Let there be room for all
The whole world is moving on
What are we waiting for?
