

# Let's Make Love

Brymo

I was born with greed and Evil, sin  
It's in my flesh  
I trust only me  
I'm too blind to see  
Pretending to care

It's the light at the end of the tunnel  
It's the promise of heaven owner  
I'm so lost in the current  
In the tide and the waves and the torrent

Let's make love  
Let time pass us by  
Let's make love  
I'll hurt, I'll be fine

If she loves then she wants freedom and free  
We learn, we stand  
We rise and we fall

It's the light at the end of the tunnel  
It's the promise of heaven owner  
I'm so lost in the current  
In the tides and the waves and the torrent

Let's make love  
Let time pass us by  
Let's make love  
I'll hurt, I'll be fine

Take me away from this place  
Lets me be brave and to stay  
I wanna be free, free, free  
Help me to see what's free to feel
