

## Patience And Goodluck

Brymo

If you get drunk he go be like say you don't know enough  
And if you smoke grass he go be like say you won know alot  
But I know something wey you know no at all  
Say to take time you go make time I talk am before before

Some people know say  
Say the drug for sorrow na attitude  
If you wait you go soon find out say

Goodtimes go come around again  
Patience and goodluck  
Dem dey close like hair and skin

If you love somebody  
Only to find say you no love them again  
And the fire wey dey burn don quench  
You no feel am again  
Well me I know say the passion wey die  
Fit to rise again  
To take time, you go make time  
I dey talk am again and again

Some people talk say  
Say to wait, na a waste, na pain  
If you try you go soon find out say  
Good things go come  
And here to stay

Patience and goodluck  
Dem dey close like hair and skin  
Some people talk say  
Say to wait, na a waste, na pain  
If you try you go soon find out say  
Good times go come around again
