

## Rendezvous (Interlude)

Brymo

Person wen no get teeth no dey chop meat  
Lay down your guard and let your heartbeat  
It will take a while but soon you will see  
The sky is big enough, spread your wings

I'm on a rendezvous with destiny  
I'm searching for some pedigree  
I'm hoping you don't mind  
That ain't nobody stopping me

If you help me see Moraya  
Say I'm friends with Jude Abaga  
Hoping she'd be fine  
That ain't nobody stopping me

And if the people don't believe  
And the leaders dem dey decieve  
Na who go make plans for the children?  
Shey we go wait till tomorrow go?
