

# See Me

**Brymo**

I'm sitting on a fence  
So high up in the sky  
I no get camouflage  
To use for my disguise  
Am flying real high  
I no dey compromise  
But the problem be say  
Gravity no dey think am twice

But if I fall  
Am hoping you gon catch me  
And if I fall  
Promise that you won't let me  
Am not afraid to try  
Am praying nothing stops me  
Am fighting for my sanity  
Na only you fit help me

See me for the man wey I be  
And when you look in the mirror  
Na yourself you go see  
See me for the man wey you see  
And when you look in the mirror  
Na yourself you go see

Am thinking about the days you used to be my girl  
Am thinking about the times you used to wish me well  
But then I gave my soul in search of fame and wealth  
And now my life is a movie scene, plenty tales to tell

But if I fall  
I hope say you go catch me  
And if I fall  
Promise you no go let me  
Am not afraid to try  
Am praying nothing stops me  
Am fighting for my sanity  
Na only you fit to help me

See me for the man wey I be  
Cos wen you look in the mirror  
Na yourself you go see  
See me for the man wey I be  
Cos wen you look in the mirror  
Na yourself you go see

Am sitting in this room alone  
Am thinking about the way to go  
I dey hoping say you no go go  
Shey you go dey here to help me grow  
Am singing for the man who's running  
The man who's trying to get along  
And if your shoe don tear and you got one pair  
You go feel my song  
But person wey first buy car  
Na him buy old model  
Chop jeje no need to use shovel eee!

To use shovel eee!

See me for the man wey I be  
And when you look in the mirror  
Na yourself you go see  
See me for the man wey you see  
Cos when you look in the mirror  
No be me you go see  
See me for the man wey I be...  
No be me you go see  
See me for the man wey you see...  
Ehh ehh...  
See me...
