

Truthfully, I am feeling free
There's something about the way you loving me
You're always here with me, I can't believe
And every step I take, you watching me
Truthfully, it took a while to see
I dey carry you around, you're in my dreams
If I talk say I hate you, I'm hurting me
Today today, I go tell you how I feel

Truthfully, honestly
I no fit to see you
If I no see me
You be like my blueprint
There's no plan without you
There's something about you
Truthfully

I used to think
My life was no good
It's something about the way the world was made
And people, they will never understand you
But I promise, I'm always there to find you

Truthfully, honestly
I no fit to see you
If I no see me
You be like my blueprint
There's no plan without you
There's something about you
Truthfully

How many times
Did I tell you
You're always on my mind
I no dey lie
There ain't no one else
You belong here with me
Truthfully

Truthfully, honestly
I no fit to see you
If I no see me
You be like my blueprint
There's no plan without you
There's something about you
Truthfully
