

# Highway At Midnight

Brynn Cartelli

Hold my hand as the street lights disappear  
I fall in love with the lyrics in you once again  
I squeeze you tight to remind you that I'm here  
A love like this highway, we can't see the end  
I'm on my way but in no rush to get back home  
I can deal with my troubles tomorrow  
I look into your eyes and I roam around in your soul  
Your love is all I wanna know

On this too late highway  
We can't see the end  
You drive me crazy  
Just by holding my hand

The best conversations are the ones held in silence  
I find I love you most at midnight on a highway  
Passing words through our brains like a cop car using sirens  
I know what you're saying like I know what's left and right  
I know where I wanna be tonight  
On a highway, highway  
I love you most on a highway at midnight  
Driving to my place  
Thanks to the street lights I see your face  
I fall in love again on a highway at midnight, yeah

Let's finally be cars  
Under the moonlight my thoughts are as clear as day  
I love you more than those three words can say

The best conversations are the ones held in silence  
I find I love you most at midnight on a highway  
Passing words through our brains like a cop car using sirens  
I know what you're saying like I know what's left and right  
I know where I wanna be tonight  
Where I wanna be tonight  
On a highway, highway  
I love you most on a highway at midnight  
On a highway, highway  
I love you most on a highway at midnight  
Driving to my place  
Thanks to the street lights I see your face  
I love again on a highway at midnight, yeah

I fell in love again on a highway at midnight  
Fell in love again while holding your hand  
I fell in love again on a highway, on a highway  
On a highway at midnight
