

# We Belong

Brynn Cartelli

West coast, I hopped up on a plane and do what I love most  
And things all change in a bitter time, yeah, I know  
But I'll never forget those summer nights  
We rolled down the streets with our windows down  
Didn't go slow, we did our damage to that small home town  
Who knows where we'll find ourselves two years from now

And I love how  
How we jumped into the pool with only dresses on  
And we didn't care at all about the time we went home  
How we danced up on the table to our favorite songs  
We belong  
We didn't get invited to the party, it's fine  
So we'll sit around the fire and we'll talk about life  
And we'll never get bored of lookin' up at the sky and the stars  
This is all I've ever known  
We belong

I can't guess the flight this time  
I left my home, but the sun shines in LA  
Long days, work for a little pay  
Gotta get out, no, it ain't just a phase  
And I'm here in the studio tryin' to find the perfect note  
Singin' the songs I wrote, tellin' some stories old  
But I remember the times we spent together  
The lies I had to tell her to get out of the mess we always get

I know that you're back at home  
The day I come we'll do somethin' dumb  
Like runnin' in the sprinkler  
And screamin' out the things that hurt  
In those precious moments, I feel like I don't have to be old  
Or smart, I'm just followin' the footsteps of my heart

And I love how  
How we jumped into the pool with only dresses on  
And we didn't care at all about the time we went home  
How we danced up on the table to our favorite songs  
We belong  
We didn't get invited to the party, it's fine  
So we'll sit around the fire and we'll talk about life  
And we'll never get bored of lookin' up at the sky and the stars

Can this be forever?  
'Cause this is my home  
(We belong)  
I belong  
(We belong)  
We belong  
(We belong)  
We belong  
(We belong)  
We belong  
(We belong)

How we jumped into the pool with only dresses on  
And we didn't care at all about the time we went home

How we danced up on the table to our favorite songs  
We belong  
We didn't get invited to the party, it's fine  
So we'll sit around the fire and we'll talk about life  
And we'll never get bored of lookin' up at the sky and the stars

This is all I've ever known  
We belong
