

ain't a lonely christmas song

Bryson Tiller

I'm used to buying presents for myself
'Cause I ain't been in love with no one else
And I'm used to being at the family function
Showing up with liquor and myself
I ain't used to this big house being a home
'Cause all I'm good at being all alone
But this is different 'cause I got you
So no, this ain't a lonely Christmas song

Thank you for your presence
It's truly a present
Since you came along
This ain't a lonely Christmas song
Thank you for your presence
It's truly a blessing
Since you came along
This ain't a lonely Christmas song

Last year the music didn't make a sound
This time I knew you wouldn't let me down
They say the warmest love is having someone
You know you need around
Like snow on the ground
Like a lost heart that's bound
One waiting to be found
You were what's missing, but I could be wrong
I hope this ain't a lonely Christmas song

Thank you for your presence
It's truly a present
Since you came along
This ain't a lonely Christmas song
Thank you for your presence
It's truly a blessing
Since you came along
This ain't a lonely Christmas song

This ain't a lonely Christmas song

This ain't a lonely Christmas song
