

Work It Out

Bryson Tiller

Babe, are we still in love?
Oh maybe we just need reminding -
Where we lost it, I know where to find it -
Right away
Right behind this wall is everything I taught us
It's making me feel nauseous
How can I give all of it away, I know -
It'll probably hurt me more to stay but -
I just don't wanna give it up

Oh maybe we just need reminding -
Where we lost it, I know where to find it
By the way -
Who's taking it from here if we don't work it out?
Your dry spell has made me feel deserted
Now I feel uncertain, I feel like such a burden
I'm trying to, still I don't wanna give it
But though I just wanna give it
Buy all, that's a given
100 percentage, meet me in the middle baby
It's sad but baby, if I'm with you -
Why would I wanna give it up?
