She's Keepin' Time

B.T.O. (Bachman-Turner Overdrive)

```
Trouble comes in shapes and sizes
Some of them are friends
Trouble is what trouble does
It always has an end

I've got to keep myself together
Got to get it straight
I've got to find some better things
Before it gets too late

Then I found myself a woman
She's the one who keeps me in line
When I go wrong
She's always there beside me
She's keeping time
She's keeping time

Failure comes before success
Tries to bring you down
Before you give up please call your baby
She likes to hang around

You got to get yourself together
You got to get it straight
You got to find some peace of mind
Before it's way to late&lt;P

Then I found myself a woman
She's the one who keeps me on the line
When I go wrong she's always there beside me
She's keeping time
She's keeping time
She's keep keep keeping time

Then I found myself a woman
She's the one who keeps me on the line
When I go wrong she's always there beside me
She's keeping time
She's keeping time
She's keeping time
She's keeping time
She's keeping time

Everywhere I go
Everything I do
She's keeping time
She's keep keep keeping time
Keep keep keeping time
She's been keeping
She's keeping time
Yeah yeah yeah
```
