The darkness just seems
to be growing stronger
in my life
Like the symbiote venom

it's already inside
But I'm not a good match for it
so it's eating me alive
It's taking control
of the wheel
it's going into overdrive
On the backroad to see ya
They told me
that this way is faster
Hold up took a wrong turn
Don't even know
where we're going
anymore trap door
I'm at the end of the road
They told me this way
I could see you for sure
But it's just getting
darker and darker
I'm losing the light
but it doesn't even matter
anymore because
