Owaranai yumenonakahe mayowazu ni susumou
Motto takaku takaku maiagarou

I know things may be hard right now
But you gotta keep going, girl, you can't slow down
Just look around and turn that frown upside down
Get off the ground and keep your chin up
You can't stop now
For the both of us, you gotta be strong
You know it's time to start adjusting
And we both gotta move on
I know it might feel like the end, but it's actually just the start
I know that you know that it's true deep down in your heart

Hitoridatta to kanjiru toki wa naze
Kagami no naka no otoko wa misuborashiku miete
Jishin mo naishi all day hitorikiri de tsubuyaku
Demo sore ga saizendakara itsumo kurikaesu nda
Lights full of stars no there's life full of stars
So many good people gonna wake you up when you're down
So don't be afraid of it, I'm tryna smile too
Can I keep going my way, if you want to
