Till now I know I haven't expressed myself
Very well and 8 bars isn't enough for me to tell
How I truly feel so I'll just say what I can right now
Us and you you and we BTOB and MELODY
Both of us can't exist without the other we coexist
Gift to each other fan and artist special kinda relationship
I know I haven't expressed myself very well
But I'm thankful for every melody in and of themselves
