If I could, I wanted to ask
Why you did what you did, why you chase me away
I still revolve around you without a name
The goodbye is colorless, the colors that don't change

Oh I've got no name
I used to be your star
It must be nice that you're a light
All I do is receive you as you are
Prosperity's fallen
What does it matter to live out the rest of my life
I would get it until I die
Your sweltering stare
I still revolve around you and nothing has changed
But if love has no name
Everything has changed
Have you really found Eris? -
Tell me, what makes me lesser than that moon
Us is the plural form of u
Maybe I wasn't there from the beginning
Someday you would understand these words
My season was always you
My cold heart is negative 248 degrees

It stopped the day you erased me
Damn

I still revolve around you
(I missed you, I lost you)
I'm running idly
(You erased me, you forgot me)

At one point, I was part of the world of the sun
(The song has stopped, the song has died)
At the heart of the star, there's only an unpleasant layer of a fog
(You erased me, you forgot me)

There's not much difference from yesterday ay
In the same day-to-day activities, only you don't exist ay
I swear we were together until yesterday ay
It's scary how only you don't exist in a same day
To tell you the truth, the one year that you weren't there
I was calm, I didn't even have regrets
Like people usually do, but hold on
I don't even remember your scent, wait
This perfume smells familiar ay
When my memories start to come back ay
I turn my head around and there
You're smiling brightly and coming to me and by your side there's…
(Hi) Hi
How have you been? I've been well
Rather than my heart that feels like it's about to explode
The temperature of this moment is negative 248 degrees

I still revolve around you
(I missed you, I lost you)
I'm running idly
(You erased me, you forgot me)

At one point, I was part of the world of the sun
(The song has stopped, the song has died)
At the heart of the star, there's only an unpleasant layer of a fog
(You erased me, you forgot me)

All I do is revolve around you
(Beyond the fog, I still watch you as you smile
Meaning, and you, don't exist in this irregularity, the truth of my orbit)
All I do is running idly
(I am Pluto of numbers and darkness that may be hard for you to remember
But I would still revolve around you damn)

I still revolve around you
(I missed you, I lost you)
I'm running idly
(You erased me, you forgot me)

At one point, I was part of the world of the sun
(The song has stopped, the song has died)
At the heart of the star, there's only an unpleasant layer of a fog
(You erased me, you forgot me)
