The curtains are going down now here
This memorable mind
How was I today?
Did everyone get pleased?
Even so, I do it like this
Being able to please people
Happy feeling remaining after finish
Now, on the stage where no one is present

On the stage where there is no one
Loneliness has come
Complex feeling
Restraining prayers
I will overcome it all the time
I knew I was used to it
I can't hide this feeling
As a cold one alone
Also after this stage

Anxious later
While saying that there is no perfection
Lower the burden
Because this cheer is not forever
Still want to stay together
That voice
Even if it is not eternal (sore), I sing again
It won't change as it's now
As a boy in eternity
Ahh

Forever
We are young
In the dancing flower petals
Wandering (Wandering) even now

Forever
We are young
Even if it gets scratched
Toward aiming dream come true

Forever, ever, ever, ever
Dream, hope, advance, advance
Forever, ever, ever

We are young

Forever, ever, ever, ever
Dream, hope, advance, advance
Forever, ever, ever
We are young

Forever
We are young
In the dancing flower petals
Wandering (Wandering) even now

Forever
We are young
Even if it gets scratched
Toward aiming dream come true

Forever
We are young
In the dancing flower petals
Wandering (Wandering) Even now

Forever
We are young
Even if it gets scratched
Toward aiming dream come true
