When I'm with you, I'm in utopia

You are the sun that rose again in my life
The return of my childhood dreams
I don't know what this feeling is
Perhaps I'm also in a dream
Dream is a blue mirage in desert
A priori from deep inside of me
I get breathtakingly euphoric
My surroundings become more and more transparent

I hear the ocean from far away
I walk across the dream over the forest
And go towards there as it gets clearer
Take my hands now
You are the cause of my euphoria

Euphoria
Euphoria
Take my hands now
You are the cause of my euphoria
Close the door now
When I'm with you I'm in utopia

Euphoria
Euphoria
Take my hands now
You are the cause of my euphoria
Euphoria
Euphoria
Close the door now
When I'm with you I'm in utopia

Did you wander looking for a dream erased like rainbow
It's different from a plain word like fate
You're looking at the same place with me with a pain in your eyes
Won't you please stay in dreams

I hear the ocean from far away
I walk across the dream over the forest
And go towards there as it gets clearer
Take my hands now
You are the cause of my euphoria

Euphoria
Euphoria
Take my hands now
You are the cause of my euphoria
Even if the ground cracks

Even if someone shakes this world
Don't let go of the hand you're holding
Please don't wake up from the dream

I hear the ocean from far away
I walk across the dream over the forest
And go towards there as it gets clearer
Take my hands now
You are the cause of my euphoria

Euphoria
Take my hands now
You are the cause of my euphoria
