Girl let me know  
(Let me know)

On top of this ending tune  
I am standing here alone  
Now tell me  
That it's over, let me know

Suddenly, in my eyes  
Rain wells up  
You well up  
I see you even when I breathe  
Love blooms  
Like cherry blossoms  
But burns and becomes ashes  
Hey girl I know  
The conclusion you made by yourself

Your hand, your body, your body heat  
That was hotter than the equator  
I'm still here, on repeat on top of the disappeared tune  
I'm turning by myself on top of this music that has ended

On top of this ending tune  
I am standing here alone  
Now tell me  
That it's over, let me know

Girl let me know  
Girl let me know  
Although I already know everything is over  
Although you're over me  
Girl let me know  
Girl let me know  
Girl let me know  
Tell me something

I just wanna know  
Know know  
I just wanna know  
Know know  
My lingering feelings are trying to withstand the end  
So please tell me something  
Girl let me know

The promises we made disappeared  
With the time we spent together  
The dominos have fallen with our breakup  
Like Juliet and Romeo  
Did I like you too much?  
The heat between me and you won't cool down  
Now I look back at the film with you  
Too early to do anything by thinking of you  
You took away my stars at night  
My sun at day  
Only leaving me with the darkness  
Of a single cold cloud  
If there are hellos  
Then there's bound to be goodbyes?  
Never ever  
I don't care about that  
I don't want to stick to that  
I'll turn away, hypnotizing myself

On top of this ending tune  
I am standing here alone  
Now tell me  
That it's over, let me know

Girl let me know  
Girl let me know  
Although I already know everything is over  
Although you're over me  
Girl let me know  
Girl let me know  
Girl let me know  
Tell me something

I just wanna know  
Know know  
I just wanna know

Know know  
My lingering feelings are trying to withstand the end  
So please tell me something  
Girl let me know

Maybe we're all just a bunch of fools  
Everyone lives with a love that has come to an end  
It's not that I still have feelings for you  
I know we can't work out  
But why does it feel like I'm having indigestion?  
As if my insides will explode  
Cries come up my throat  
Making me throw up  
In my imagination, I fight with you  
Make up with you and understand you  
Your hand gestures, your eyes  
They are faded but not gone  
Why won't it go away?  
Why won't it go away?  
Why won't it go away?

Girl let me know  
Girl let me know  
Although I already know everything is over  
Although you're over me  
Girl let me know  
Girl let me know  
Girl let me know  
Tell me something

I just wanna know  
Know know  
I just wanna know  
Know know  
My lingering feelings are trying to withstand the end  
So please tell me something  
Girl let me know
