

Like Animals

BTS

Take me into your deep
I wanna lay in your world
So what, your shadow's a mess
I'm walkin' with my own dirt

We can go all night
Don't you close your eyes
Don't you fear the light
All night

If you wanna be animals
Baby, we can be animals
Eat this life 'til your heart is full
If you want, you can have it all

Six feet down in the sand
There's creatures that made a hole
Do speak, I'm begging you, please
There's beauty outside control

Oh, we can go all night
We can go all night
Yeah, we should go all night
All night

If you wanna be animals
Baby, we can be animals
Eat this life 'til your heart is full
If you want, you can have it all

Got you in the wild
Somewhere so far
With your claws sharp
And them fangs out
Now you see a whole land full of animals
None of us are tameable
None of us are tameable

Heart untameable
Go and take it all

If you wanna be animals
Baby, we can be animals
Eat this life 'til your heart is full
If you want, you can have it all
