Glittering starlight
Building with blinking light
We're shining
In each room's own star

Some light is ambition
Some light wandering
The lights of people
A precious one

Dark night (do not be lonely)
Like a star (We shine)
Do not disappear
It's because it's a big existence
Let us shine

The reason this night's expression is so beautiful again
Those stars, those lights, no it's probably because of us

You got me
I dream while looking at you
I got you
In the nights that are pitch black
Each other's light that we saw
We were saying the same thing

Starlight shining brighter than the darkest night
Starlight shining brighter than the darkest night
The later the night gets, the brighter the starlight

One history in one person
One star in one person
Shining with 7 billion lights
7 billion worlds

The night view of seven billion living cities
Maybe another city's night
Our individual dreams, let us shine
You shine brighter than anyone
One

How beautiful this night look is so beautiful again
That darkness is not moonlight, it's us

You got me
I dream of you
I got you
In the dark night
Each other's light
We were saying the same thing

Starlight shining brighter than the darkest night
Starlight shining brighter than the darkest night
The later the night gets, the brighter the starlight

City lights, stars of this city
I remember the night sky I saw in my childhood
Lights called people, by stars called people
This place that is full of them
We shinin'

You got me
I breathe while looking at you
I got you
In the nights that are pitch black

Shine, dream, smile
Oh let us light up the night
We shine in our own way
Shine, dream, smile
Oh let us light up the night
All we need is to shine
