24, I feel like I became an adult faster than everyone else
My life has been a movie, all the time
I ran to where the sun rose, every single night
It's like I've also visited someone's tomorrow
The boy who thought the world was too big
Keep on runnin' all day, pick up my mic
Friends ridin' subway, I'll be in the airplane mode
Rock on the whole world, I made my own lotto
But is it too fast? Traces of what I've missed
Don't know what to do with
Am I livin' this right?
Why am I alone in a different time and space?

Oh I can't call ya I can't hol' ya
Oh I can't
And yes you know yes you know
Oh I can't call ya I can't touch ya
Oh I can't
Let me know
Can I someday finna find my time
Finna find my time
Someday finna find my time

Oh I think I was in yesterday
Cuz everybody walk too fast
Without me realizing, the young me grew up
(Like a child who lost his way)
This got me oh just trippin'
This feeling that lingers around
Don't know what to do with
Am I livin' this right?
Why am I alone in a different time and space?

Oh I can't call ya I can't hol' ya
Oh I can't
And yes you know yes you know
Oh I can't call ya I can't touch ya
Oh I can't
Let me know
Can I someday finna find my time
Finna find my time
Someday finna find my time

Sometimes when I'm out of breath
I press down my hat and keep running
Yeah I don't gotta know where I go
Even if it's opposite of sun
One time for the present
Two time for the past
Happy that we met each other
Now til' the very end

Oh I will call ya I will hol' ya
Oh I will
And yes you know yes you know
Oh I will call ya I will touch ya
Oh I will

And you know
Can I someday finna find my time
Can I someday finna find my time
Finna find my time
Find my time
