RUN

Don't tell me bye bye

RUN

You make me cry cry

RUN

Love is a lie lie

Don't tell me, don't tell me

Don't tell me bye bye

You are the sun that shines upon me

My soul blooms for you, my soul withers for you

I wish that you would hold me tight

Hold tight my unwithering heart

Even if I reach my hand out, my dream fades away

Even if I run, I'm still in the same place

There is no answer

Love is stupid, it's like playing a desperate game of tag

Just as we are

We start to run

Even if we get covered in scars

I can laugh as long as I'm with you

Run run run again

I can't stop

We run run run

It won't ever end

There's no other choice anyway

I can only love you anyway

Run run run again

Even if we're already hurt

We run run run

Even if we're still far

Even if we never reach it  
Even if I'm hated by my fate

Run  
Don't tell me bye bye  
Run  
You make me cry cry  
Run  
Love is a lie lie  
Don't tell me, don't tell me  
Don't tell me bye bye

Everything is over? It doesn't matter  
I can't tell if it's sweat or tears anymore  
In the midst of the headwind, the storm, and this love too  
As long as I'm with you, naturally I can run again

Just as we are  
We start to run  
Even if we get covered in scars  
I can laugh as long as I'm with you

Run run run again  
I can't stop  
We run run run  
It won't ever end  
There's no other choice anyway  
I can only love you anyway

Run run run again  
Even if we're already hurt  
We run run run  
Even if we're still far  
Even if we never reach it  
Even if fate hates me

My memories are like withered leaves  
They turn to dust  
A distant back, chase it again  
Just back to where you are  
As if chasing a butterfly, like being in a dream  
Following your traces  
Even if I already know, I can't stop anymore  
No matter what

Run run run again  
I can't stop  
We run run run  
It won't ever end  
There's no other choice anyway  
I can only love you anyway

Run run run again  
Even if we're already hurt  
We run run run  
Even if we're still far  
Even if we never reach it  
Even if fate hates me

Run  
Don't tell me bye bye  
Run  
You make me cry cry

Run

Love is a lie lie

Don't tell me, don't tell me

Don't tell me bye bye
