Just let me love you

Let me love

Let me love you

Let me love

Let me love you

All this is no coincidence

Just, just, by my feeling

The whole world is different from yesterday

Just, just, with your joy

When you called me

I became your flower

As if we were waiting

We bloom until we ache

Maybe it's the providence of the universe

It just had to be that

U know, I know

You are me, I am you

As much as my heart flutters, I'm worried

The destiny is jealous of us

Just like you I'm so scared

When you see me, when you touch me

The universe has moved for us

Without missing a single thing

Our happiness was meant to be

Cuz you love me, and I love you

You're my penicillium, saving me, saving me

My angel, my world

I'm your Calico cat, here to see you
Love me now, touch me now

Just let me love you (let me love, let me love you)
Just let me love you (let me love, let me love you)
Since the creation of the universe
Everything was destined
Just let me love you (let me love, let me love you)
Just let me love you (let me love, let me love you)

You're my penicillium, saving me, saving me
My angel, my world
I'm your Calico cat, here to see you
Love me now, touch me now

Just let me love you (let me love, let me love you)
Just let me love you (let me love, let me love you)
Since the creation of the universe
Everything was destined
Just let me love you (let me love, let me love you)
Just let me love you (let me love, let me love you)

Come to my side now
So we can become one
I don't want to let go- no
Do I just have to treasure it
Although you say nothing I feel it

There are many more stars
Together we're flying
It's never over
Don't be nervous and grab my hand
Cause now we are one
Let me love you

Just let me love you (let me love, let me love you)
Just let me love you (let me love, let me love you)
Since the creation of the universe
Everything was destined
Just let me love you (let me love, let me love you)
Just let me love you (let me love, let me love you)

Let me love, let me love you
Let me love, let me love you
