In a sigh, lots of worries are hiding  
Stop thinking about it, You already know it all  
In the middle of the road, in the moment you want to give up  
Shout out louder  
So what, what, what  
There's nothing that works out as I wanted  
There's even fewer places for me to hide  
It's already been a while since the dice were rolled  
If you dawdle, you'll be swept away, oh bae  
90% of your worries are an imaginary swamp that you created  
Just go instead of worrying, Don't get scared, cheer up  
Shout it out, So what, what

We are, we are, we are  
Young & wild & free  
Your worries, worries, without no answer  
Don't fall into them and stay in them

Even if you're in danger on the boundary  
Let's cut through the wind while laughing and chatting  
Sometimes run like a fool  
With mistakes and in tears, we just go

So what  
Don't stop and worry yourself  
It's good for nothing  
Let go  
Although there's no answer yet  
You can start the fight

So what  
Oh oh oh oh oh oh oh oh oh oh  
Oh oh oh oh oh oh  
Let go  
Oh oh oh oh oh oh oh oh oh oh  
Oh oh oh oh oh oh  
So what

Ay some say they hate their work  
Ay some say they only want to rest  
Ay their pain and devastation  
Ay when all those rage at me  
Ay what else can I do, uh  
Since there's only one answer, uh  
Let's just trust it and run  
So what?

I don't wanna die right now  
I don't wanna, I don't wanna fight right now  
I don't like worries, Life is long  
Just go, I wanna live right now  
Since the break is broken, step on the accelerator  
However you do  
Where's the fun if you know all about a person's life  
Pain is my medal  
So, so what?

We are, we are, we are

Your worries, worries without no answer  
Don't fall into them and stay in them
