Even when the desert becomes the sea, we swim together
Even the lonely whales, we're singing like them now
Since we're together, I'm not afraid to wish for eternity
My faith is in you, my one and only reason

You're my silver lining
You the one who just light me up
Oh I can always feel you beside me
The sunset hit the building
We are given to each other like this

Say
Oh I'm runnin' round in a daze
We been walkin' so many ways
Neol pume teojil deut ana
Can't you see the take two
Letters I didn't send to you
My youth with you
This is the beginning

Yeah we never felt so young
When together sing the song
Seoroui nun matchumyeo
Biga naeryeodo
Yeah we never felt so right
When I got you by my side
Along the road, we walked together
Oh we young forever

It was possible because I was with you
I was happy being with you
The breath in your voice
I stood up with your tears

Do I deserve your love?
The intersection of souls we've created over the years
I am so grateful and happy to be with you
Let's continue to be happy in the future

Yeah we never felt so young
When together sing the song
Meeting each other's eyes
Even if it rains
Yeah we never felt so right
When I got you by my side
Follow the stars we hit together
Oh, we young forever

Sing like this
(We ain't never felt so young)
Won't you hold my hand

Yeah we never felt so right
Need you here tonight
(We ain't never felt so young)
Oh we young forever
(Never felt so young)

Yeah
Never felt, never felt so young
