Every time during the same day
I am the happiest when I meet you
Every time even in a different everyday life
You're the most special person to me

Everything's fine
There won't be any pain
Lately, I don't know
I feel like I'm floating
Thanks a lot to time
I'm writing a song like this
This is a song for you
Yeah song, yeah song

Now let's go to the blue sea
That blue sea we used to play with
Worries are useless for a while
Let it go for a while
Let's have fun together, remembering together
A small island in the middle of the blue sea

Even though we're far away now
Our hearts are still the same
Even if you're not by my side, yeah
Even if I'm not by your side, yeah
You know we're together

Every time during the same day
I am the happiest when I meet you
Every time even in a different everyday life
You're the most special person to me

I wake up in the morning like wild grass
I check you like a mirror
You're the only one in my eyes
Another heavy bruise Mirfak
I stroll around and think about this star
Allowing our distance
Oh, can I be your Bibilly Hills
Like you did the same to me
(Baby)

Too fast is a little dangerous
Too slow is a little boring
Not too fast
Or not even too slow
Let's go at our own speed
This is a pretty long fun roller coaster

Even though we're far away now
Our hearts are still the same
Even if you're not by my side, yeah
Even if I'm not by your side, yeah
You know we're together

Every time during the same day
I am the happiest when I meet you
Every time even in a different everyday life
You're the most special person to me
