

Gotta Good Girl

Bubba Sparxxx

Uh-huh, I'm in the mood
So what you wanna do?
Let's go somewhere
And put one in the air
I'm feeling right
Let's cut tonight
I'm a real good girl
Wanna rock your world

See we ain't from the big city
And we ain't from the suburbs, you feel me
We was raised in the land beyond that
Some thorough country folks, really
And we ain't have much of nothing
So called trash, lower class, chillin'
My dreams stretched way beyond that
And she was the only one listening
I knew I had to do something
'Sides working the mill or going to prison
Too many other folks done gone that route
It couldn't be this one
When I first start writtin'
She said she had a funny feelin'
From that point on it's a fact I know that
My country girl was a real

Uh-huh, I'm in the mood
So what you wanna do?
Let's go somewhere
And put one in the air
I'm feeling right
Let's cut tonight
I'm a real good girl
Wanna rock your world

And then the road got bumpy
When everybody seen me on television
If she saw me even talkin' to a broad
She swear I hit 'em
And a man may not have
But rumors alone don't prove it
Believe half of what you see
None of what you hear
I swear dear I did not do it
And even if I did
You ain't a lil' kid
You know what this is
You know the price I paid
And the nights I stayed
On the grind tryna get us through it
So this could be this or that could be that
Baby relax I'm just stating the facts
The way she reacts is the way she attracts
Yeah, next day she'll be back in the sack

Uh-huh, I'm in the mood
So what you wanna do?

Let's go somewhere
And put one in the air
I'm feeling right
Let's cut tonight
I'm a real good girl
Wanna rock your world

I wouldn't take a million for ya
I wouldn't give a nickel for another one like ya
It just is what it is
We just are who we are
I'm right here beside ya
You already been there for the worst
And you made it better
Folks gon' yap, flappin' all that
Tryna tear us apart we can't let 'em
And I know I'm hard to love
You make it look so easy
But please quit trippin' 'cause you see me sittin'
Next to some bitch on TV
And I promise to make that effort
You know, do them lil' thangs
It's just me and my baby
What can I say?
Everything is Kool and the Gang
Yeah

Uh-huh, I'm in the mood
So what you wanna do?
Let's go somewhere
And put one in the air
I'm feeling right
Let's cut tonight
I'm a real good girl
Wanna rock your world

Uh-huh, I'm in the mood
So what you wanna do?
Let's go somewhere
And put one in the air
I'm feeling right
Let's cut tonight
I'm a real good girl
Wanna rock your world

Uh-huh
Oh yeah
Say yes
Uh-huh
Ah ha
Oh yeah
Say yes
Uh-huh
Ah ha
Oh yeah
Say yes
Uh-huh
