

## On A Mission

Buck-O-Nine

I want to rise from my seat  
Don't want to be held down  
I want to get off the couch  
I want to find a new sound  
I want to step outside  
I want to say I'm alive  
I'm on a mission, I'm on a mission  
Courtesy of a condition  
My condition, my condition  
Is something that you can't see  
I'm just looking for a better way  
I'm on this mission because of my condition  
And its the only thing I can see  
Don't want to try hard to be something  
Just want to let it come naturally  
I can only see one thing and that's  
A bright future for me  
Cause you're my friends I hope you'll  
Never think again about my intentions on this stage  
Its not just what I say but its what I believe  
And now the only thing I now is get up & go  
And find my destiny  
I'm on a mission, I'm on a mission  
Courtesy of a condition  
I've got a vision, I've got a vision  
Of all the things we can do together
