

Cold Cold Wind

Buck Owens

In the silence of this darken room my mind reels with a fragran
ce of your perfume
In your mind stormy thoughts are growing
Mhm I feel a cold cold wind a blowing woman I feel a cold cold
wind a blowing
It's been a lifetime since I been close to you still no one rea
lly knows you like I do
With clouds in your mind and ray in your eyes a showing
Mhm I feel a cold cold wind a blowing woman I feel a cold cold
wind a blowing
With my arms around you I hold you tight
Though you do the same to me girl you don't feel right
You've got a way of leavin' without going
Mhm I feel a cold cold wind a blowing woman I feel a cold cold
wind a blowing
